

When paying by **check**, be sure to print a Payment Voucher to mail with your check to ensure the payment is posted to the correct account and period.

Printing Returns and Payment Vouchers:

Completed returns are printed from the ACTIVITY screen by selecting REPRINT RETURN.

Payment vouchers are printed after completing a return by selecting MAKE PAYMENT from the ACTIVITY screen or Check Method from the MAKE PAYMENT screen.

You will need to identify the period start date when reprinting a return or payment voucher.

What if I discover a mistake on a return after it has been submitted?

An amended return must be filed to report the corrected tax liability. The return must be printed and should be completed as if the original return had not been filed. Go to <http://maine.gov/revenue/salesuse/returnlink.htm> to print out the amended tax return. Be sure to choose the correct return for the period you need to adjust. Enter the amount paid with the original return as a “Credit Carry Forward From a Prior Period”. Use the EZ-Pay system <https://portal.maine.gov/ezpay/welcome.do> to make payment of any additional tax due.

IMPORTANT INFORMATION ABOUT FILING YOUR TAX RETURN

When are returns filed?

Filing frequencies are based on a retailer’s annual tax liability. New retailers estimate this amount on their registration application. The initial filing frequency that was selected on the registration application is pre-printed on the enclosed Retailer Certificate.

Tax returns are due the *15th of the month* following the reporting period. Returns are required to cover all periods from the business start date indicated on the registration application.

A return is required for every period an account is open, even if there is no activity to report.

Example: A retailer applied for a sales tax registration with a business start date of January 1 and monthly filing. The actual date the business opened was May 1. The retailer is required to file returns for January-April, reporting monthly gross sales of \$0.00.

		Based on filing frequency, when is the return due? Returns are due no later than the 15th of the month.			
		Monthly/Seasonal	Quarterly	Semiannual	Annual
When did the activity occur?	January	February	April	July	January
	February	March			
	March	April			
	April	May	July		
	May	June			
	June	July			
	July	August	October	January	
	August	September			
	September	October			
	October	November	January		
	November	December			
	December	January
